FAX COVER SHEET

Date: August 11, 2004

No. of pages including cover: 10

To: **Mr. Rolland A Schmitten**
Director
Office of Habitat Conservation
NOAA National Marine Fisheries
Service
F/HC, 1315 East/West Hwy
Silver Spring, MD 20910

From: Jim Ayers
Director, Pacific Office

Fax: 301.427.2572

Fax: 907-586-4944

Phone:

Phone: 907-586-4050

Subject: **DSC Petition Comments**

Please accept the following fax of comments on the DSC Petition. Thank you for the opportunity to submit public comments. Please feel free to contact me if you have any questions.

175 SOUTH FRANKLIN STREET, SUITE 418 JUNEAU, ALASKA 99801 907.586.4050 WWW.OCEANA.ORG

Take Action!**Protect Vulnerable Deep Sea Corals and Sponges!**

Oceana's fight to defend deep-sea corals from the destructive fishing practice known as "bottom trawling" has reached a critical moment -- **we have petitioned the National Marine Fisheries Service (NMFS) to put regulations in place protecting corals and sponges from bottom trawling**, and they have opened the issue up for public comment.

This is your chance to tell NMFS that protecting fragile, ancient coral and sponge habitats is important to you!

Take action -- tell the Director of NMFS' Office of Habitat Conservation to support Oceana's petition and protect corals and sponges from bottom trawling!

Dear Rolland Schmitten:

I am writing to urge you to adopt the rule that is requested for protecting deep sea corals as set out in 69 Fed. Reg. 32991 (June 14, 2004). Coral and sponge habitats are too vulnerable and valuable -- for ocean health and potentially for human pharmaceuticals -- to allow bottom trawling fishing vessels to destroy them.

The proposed rule would provide the most reasonable protection from damage to living sponges and corals while having the least harmful impact on the economic wellbeing of existing fisheries and fishing communities.

Thank you for considering my comments.
